Extension Sheet 1

Name:

Using my senses in my greenspace:

Describe one of the things you saw and which senses you used to learn about it when you visited your local greenspace. For example, if you saw a tree, what did the bark on its trunk feel like? What colour were its leaves? Was it windy - did the leaves rustle? Or if it was autumn, did they make a crunching noise when you stepped on them? If it was a fruit tree, could you taste the fruit? Did it have any flowers that you could smell?

.....

In the box below, draw a picture showing some of the activities you can take part in in your greenspace. And on the back of this sheet, you could draw a map of your greenspace showing all the different areas and activities you can take part in (there's an example on our website if you're not sure how to make a start), or instead, you could draw a map showing how you get from home to your greenspace.
